Along with *Directed Studies*, *A to E Assessment in Action* & *Spoke Placements* please feel free to use this simple *pare sign off tool* to help with evidence of learning for your PARE sign off days with your Practice Assessor.

This easy to use tool can be helpful when collecting signatures for competencies, discussions & demonstrations achieved whilst working in a busy emergency department (Ed).

We understand it can be difficult obtaining signatures on PARE throughout your shift due to the immediate needs of patients within the department

It's not always possible for practice Assessors/Supervisors to attend to the online PARE straight away and also PC's within the Ed could be in use for more urgent matter so keeping this sign off sheet handy can provide a quick means of evidencing competencies achieved to then review and transfer to PARE online at a more convenient time.

Hint: write in a competency you need for this placement at the start of every shift and see if you can achieve it.
